PROFILE

Master's student in User Experience Design with a Bachelor's degree in Information Technology and a strong passion for User Interface Design and Front-End Development. Experienced in creating user-centered digital products through UX research, visual design, design systems, wireframing, prototyping, and usability evaluation. Skilled in developing responsive websites, allowing seamless collaboration between design and development. Adept at transforming research insights into intuitive, visually engaging, and technically feasible solutions. Seeking opportunities as a UI Designer, UI Developer, or UX Designer where I can contribute both design thinking and development expertise.
